Hi Juan,

I am writing on behalf of a concerned business owner. Sunday night an electrical pole infront of our property at 310 N Madison was set on fire. We discovered it when we came to work this morning. Our internet is down and Spectrum came out and alerted us to the down power lines.

I have attached photos below.

Madison Ave and Oakwood have been increasing dangerous we've had shootings and now are being threatened by fire.

This was directly infront of our property and I found burnt embers in our parking lot next to our business owners car.

All the businesses on the street have been affected and it's a scary situation.

I wanted to let the city know. These encampment are growing we feel pretty powerless in the face of the increasing threatening environment.

Hi Carmel,

This location is scheduled for another service day on Thursday. I will flag the debris to Sanitation to see if they can address before then. We are working closely with PATH in addressing the on going issues in the area and more resources have been allocated.

I am available to schedule a call if you wish to further discuss. Let me know what works best for your schedule and I should be able to accommodate.

Thank you for reaching out to our office, I hope you can make the next Neighborhood watch meeting to discuss some of the updates we have been working on .

Hi Juan,

Thank you for responding. Maybe we can set up a phone call the first week of May. I am on the east coast and won't be back until May 2nd.

Do you know if the city is going to replace the light pole? I am afraid it's been weakened by the fire and could fall or be less stable in the case of future vandalism.

Thanks for looking into this,
Carmel Ni
